PRELIMINARY SYNONYMICAL AND DISTRIBUTIONAL
CHECKLIST
OF AFRICAN LEPIDOPTERA

Ahmet Ömer Koçak Muhabbet Kemal

Van, 2012

Abstract: Preliminary Synonymical and Distributional Checklist of African Lepidoptera. *Cent. Ent. Stud., Memoirs* 5: 1-975, 5 figs.

This paper deals with the bibliography and the preliminary checklist of the Lepidoptera of Africa based upon the fauna of 53 states. Totally 19200 species (or 23921 valid species group names) are arranged alphabetically under 86 families, together with the synonymous scientific names in chronological order. Distributional information of each taxon are given as geographical codes. Some taxa are also provided with their original references. Totally 1632 publications are listed with notes of their contents and geographical information.

Key words: *Lepidoptera*, *Acraeidae*, *Adelidae*, *Aganaiidae*, *Agonoxenidae*, *Alucitidae*, *Arctiidae*, *Argynniidae*, *Autostichidae*, *Batrachedridae*, *Blastobasidae*, *Bombycidae*, *Brachodidae*, *Brahmaeidae*, *Bucculatricidae*, *Callidulidae*, *Carposinidae*, *Choreutidae*, *Cimeliidae*, *Coleophoridae*, *Copromorphidae*, *Cosmopterigidae*, *Cossidae*, *Ctenuchidae*, *Danaidae*, *Douglasiidae*, *Drepanidae*, *Dudgeonidae*, *Elachistidae*, *Epermeniidae*, *Epipyropidae*, *Eriocottidae*, *Ethmiidae*, *Eupterotidae*, *Gelechiidae*, *Geometridae*, *Glyphipterygidae*, *Gracillariidae*, *Hepialidae*, *Hesperiidae*, *Heterogynidae*, *Himantopteridae*, *Hyblaeidae*, *Lacturidae*, *Lasiocampidae*, *Lecithoceridae*, *Lemoniidae*, *Libytheidae*, *Limacodidae*, *Lycaenidae*, *Lymantriidae*, *Lyonetiidae*, *Metarbelidae*, *Micropterigidae*, *Momphidae*, *Nepticulidae*, *Noctuidae*, *Notodontidae*, *Oecophoridae*, *Opostegidae*, *Papilionidae*, *Pieridae*, *Prodidactidae*, *Prototheoridae*, *Psychidae*, *Pterolonchidae*, *Pterophoridae*, *Pyalidae*, *Riodinidae*, *Satyridae*, *Saturniidae*, *Scythridae*, *Sesiidae*, *Sphingidae*, *Stathmopodidae*, *Stenomidae*, *Thaumetopoeidae*, *Thyatiridae*, *Thyretidae*, *Thyridae*, *Tineidae*, *Tischeriidae*, *Tortricidae*, *Uraniidae*, *Xyloryctidae*, *Yponomeutidae*, *Zygaenidae*, Africa, checklist, bibliography, distribution.

Introduction

First African expeditions¹ within the projects of the Cesa² were realized by the first author in 1996 to Ethiopia (two times). The results of these travels were partly published or typed to the database programs of the Cesa, which is now the basis of all the Cesa projects. In 2004 and 2005 the authors realized four expeditions to the Soutpansberg Mountains in Limpopo Province of South Africa. Evaluations of the results of these field works are still continuing. Some results have been published in various Cesa serials. The authors published numerous articles, checklists, faunal reports, taxonomical and nomenclatural papers on African Lepidoptera, as well as other insect groups.³ The first results on the international faunistic projects of the Cesa has been published as a comprehensive work with numerous illustrations (Koçak & Kemal, 2007)⁴

First attempt on the list of African Lepidoptera was made by the authors in 2007 with the temporary report on the Lepidoptera of Zaire.⁵ First comprehensive list was planned for the Lepidoptera of South Africa, and published in 2007.⁶ Concerning the Lepidoptera of Africa, the first temporary results on this subject was reported in 2007.⁷ Following them the second⁸ and the third results⁹ were reported in 2008 and 2009 respectively. The present preliminary checklist is based upon the previous temporary reports,¹⁰ supported with new faunistic data of the info-system of the Cesa,¹¹ updated from taxonomical and nomenclatural standpoints. Next step will be more comprehensive, and revised checklists of the African states. One point should not be kept out of sight, this is a very long-termed process, and can never be hundred percent complete and accurate as in the cases of all similar studies in the past, or in the present time.

The present checklist deals with the 19200 species (or 23921 valid species group names) of the Lepidoptera of Africa, arranged alphabetically under the related families, together with the synonymous scientific names in chronological order. Distributional information of each taxon are given as geographical codes.¹²

Number of the valid species and subspecies recorded in 53 states (including some islands) in the Continent Africa are given below in alphabetical order: **Algeria** [DZ] (1681), **Angola** [AO] (1159), **Benin** [BJ] (0122), **Botswana** [BW] (0396), **Burkina-Faso** (Upper Volta) [BF] (0132), **Burundi** [BI] (0303), **Cameroon** [CM] (2550), **Canary Islands** [Cn] (0426), **Cape de Verde** [CV] (0038), **Central African Republic** [CF] (0459), **Comoros** [KM] (0197), **Congo** [CG] (0858), **Democratic Republic of the Congo** (Zaire) ([ZR] (3650), **Djibouti** [DJ] (0125), **Egypt** [EG] (0714), **Equatorial Guinea** [GO] (0416), **Eritrea** [ER] (0209), **Ethiopia** [ET] (1353), **Gabon** [GA] (1063), **Gambia** [GM] (0187), **Ghana** [GH] (0875), **Guinea** [GN] (0443), **Ivory Coast** [CI] (0810), **Kenya** [KE] (2656), **Leshoto** [LS] (0165), **Liberia** [LR] (0420), **Libya** [LY] (0603), **Madagascar** [MG] (1605), **Malawi** [MW] (1146), **Mali** [ML] (0106),

Totally 1632 publications of the African Lepidoptera are listed as author index in the references part of this study. Each publication is also evaluated according to various scientific subjects and the geography. Details are given in the part “Annotated Bibliography”. In the part of the “List of the species group taxa”, short lists of the references that related with the families are given.

List of the Species Group Taxa

Here, the species group taxa are listed alphabetically under the related families. Synonymous names are arranged in chronological order. Nomenclaturally unavailable names are marked with #. Original references to the taxa if given, are blue in colour. Geographical codes of the taxa are mentioned as dark blue and bold. A short bibliographical list to the important families, used in this study, is also added.
